

Total Manufacturing 3rd Party Support

Who We Are

Since 2008, VAS has partnered with our customers to become a valued added extension of their operation. This has allowed our customers to focus their efforts on their core business as VAS provides the resources to assist in the areas of need.

Why Choose Us

Extensive Industry Experience

The VAS team has 15 years of experience within the automotive manufacturing sector. Our management team has industry leading experience in what is required to ensure quality products get shipped to the OEMs.

Scalability and Flexibility

Utilizing our on demand services will enable the ability to scale up and down quickly. Avoiding the complexities of hiring and laying off core staff.

ISO 9001 Compliant Quality System

VAS prides itself on being a customer focused service provider. Delivering standardize and consistent results each and every project. We embody the continuous improvement mindset to ensure we're able to provide the absolute best service to our customers.
